

Chemical Dosing Systems

Capacity: 6 to 120 GPD

CDS

SERIES

Pure Aqua supplies a comprehensive selection of dosing pump systems for small to large-scale applications within disinfection, flocculation, and pH adjustment. Our engineers have expertise in proposals regarding "plug and pump" including complete packages. We manufacture chemical dosing systems with custom-made solutions that are intended to produce available dosing technology in complete packages. The Pure Aqua CDS series chemical dosing systems offer a wide range of capacities to meet various chemical treatment applications. Each system includes the chemical metering pump and polyethylene chemical tank, along with the necessary hoses and fitting for the pump.

Standard Features

Diaphragm Metering

- Fully adjustable output capacity from 6-120 GPD
- Manual function control for stroke rate & length
- Highly reliable timing circuit
- EMI resistant
- Thermally protected solenoid with auto-reset
- Bleed valve assembly
- Plastic pvc head/fittings and polyethylene tank for a wide range of corrosion resistance to such chemicals as mild acid, chlorine, and caustic solution

Digital Metering

- Maximum turn-down ratio of 1:1000
- Dosing rate is set using a logarithmic scale that runs from 0.1-100%

Available Options

- 230V/1ph/50Hz or 60Hz
- Epoxy coated stainless steel mixer
- pH controller
- ORP controller
- Stand-by pump
- Skid mounted unit
- Custom built unit
- Pump maintenance spare kit
- Level switch
- Local control panel

Applications

- Water purification and pollution control
- Iron, hydrogen sulfide & manganese removal
- Scale prevention
- Acid water neutralization
- Coagulation and turbidity removal
- Waste water treatment
- Food Processing
- Detergent and wetting agent metering
- Swimming pool treatment
- Liquid fertilizer treatment
- Hydroponics nutrient treatment
- Municipal water treatment
- Algae control
- Livestock water treatment

Chemical Dosing Systems

CDS

SERIES

Capacity: 6 to 120 GPD

Pure Aqua CDS series provides chemical dosing pumps that comprise a complete package with fully custom engineering, corrosion-resistance, and pre-packaging. This package consists of the capacity to utilize specific pump technology best suited for your intended use. The CDS series allows engineers and specialists in this field to outline the most effective chemical feed system for their water treatment application. The specialized features of our chemical feed system give it further advantages that separate it from similar systems in the market. These features include a compact and transportable preorganized skid with great security, corrosion resistance, and alternative choices of metering pumps available.

Water Treatment Applications and Uses:

- pH neutralization
- Disinfection
- Coagulation and flocculation
- Sodium hydroxide feed
- Sulfuric acid dosing
- Fluoride treatment
- Potassium permanganate dosing
- Dispersant polymer dosing
- Alum feed
- Antiscalant addition
- Hydrochloric acid metering
- Sodium hypochlorite systems
- Dechlorination SMBS

Model #	Output Capacity		Max Pressure (PSI)	Pump Material			Tubing Connection	Electrical Data		NSF Rating	Tank Size
	GPD	LPD		Dosing Head	Valve Ball	Gasket		Watts	Enclosure Class		

Diaphragm Metering
